Form 990 is available for public inspection and, for some people, serves as the primary or sole source of information about a particular organization. How the public perceives an organization in such cases may be determined by the information presented on its return. Therefore, please make sure the return is complete and accurate and fully describes, in Part III, the organization's programs and accomplishments.

#### SOUTHEAST, INC. AGENCY SERVICES PLAN ABSTRACT FY 1999

#### Program/Service Initiatives

#### PROGRAMS FOR ADULTS WITH SEVERE MENTAL DISABILITIES

#### **AFTERCARE AND TRI-WEST**

The Designated Case Management Unit utilizes a Recovery Model in assessing and meeting the needs of clients. Group based upon clinical appropriateness to clinical consumer treatment outcomes will be developed and conducted. Currently, After offers "Restart Groups," at 13 sessions for each group. The focus of this group is management of mental illness and independent community functioning.

Other consumers served by this unit generally present low to moderate service needs and may have been stabilized and well involved in recovery for a number of years. Their needs usually include ongoing medication monitoring and periodic crisis resolution. Their patterns of service utilization typically start with weekly or biweekly sessions; later, as they learn to manage their symptoms, engage in recovery, and achieve stability, service utilization decreases to monthly or quarterly interventions.

#### GENERALIST COMMUNITY TREATMENT TEAMS

#### Target Population & Program/Service Overview

Generalist CTT's are designed to serve adults over the age of 18, who meet the criteria for ODMH 508 certification. Consumers assigned to CTT's have typically experienced multiple psychiatric hospitalizations and have significant needs in most life domain areas. The majority of clients are assigned to a team subsequent to an admission to the state hospital.

Southeast operates seven Generalist CTT's. Teams are staffed by one master's degreed team leader, 3.5 F.T.E. case managers, 0.5 F.T.E. nurse, and 0.3 F.T.E. psychiatrist. Those teams with a 0.5 F.T.E. nurse may also have a Community Living Specialist or case aide. In meeting the goal of focusing nursing in the delivery of more holistic health case services, a nursing practitioner was added to the Southeast staff.

#### SPECIALIZED COMMUNITY TREATMENT TEAMS: Homeless Community Treatment Team

Homeless consumers are defined by the same characteristics as the general SMD consumer population. They frequently present dual diagnoses including alcohol and/or drug abuse/dependence; they may require a higher level of support when first moving into independent housing. They often present a higher frequency of medical and legal needs. Many resist case managers' interventions and staff may spend several months developing a relationship with the client. As a result of these multiple factors, staff may spend up to 12 months with an individual before s/he is willing to accept services.

#### SPECIALIZED COMMUNITY TREATMENT TEAMS: MI/DD (MI/MR) Community Treatment Team

The MI/DD Team serves individuals who have severe and persistent mental disabilities and also have a diagnosis of developmental disability. The Team functions in a fashion similar to other teams and provides similar services. However, this team places greater emphasis on developing and implementing behavioral (with a focus on challenging behaviors) treatment plans, teaching activities of daily living, and linking consumers to services in the MR/DD System. Persons served by this team present needs that generally require high levels of service to continue their tenure in the community.

#### Specialized Community Treatment Teams: Homeless Dual Diagnosis Community Treatment Team

This team serves one of the most challenging groups of consumers because of the dual presence of chemical dependency and mental illness, combined with the status of homelessness. Most clients served by the team are not immediately interested in

Southeast, Inc. Agency Programs FY 1999 Abstract

mental health or drug/alcohol treatment or rehabilitation. Their addictions are typically of long standing duration and there is little motivation to change their life style due to oppression, habituated living patterns, and lack of support systems. In spite of these barriers, consumers surprisingly welcome the assistance of a case manager, nurse, or physician and over time some dramatic changes take place.

#### SPECIALIZED COMMUNITY TREATMENT TEAMS: JUSTICE TEAM

The Justice Team is designed to serve 30 consumers who are frequently involved in the criminal justice system and are assessed as having a severe mental disability. The population typically presents with a co-existing long term chemical dependency and anti-social behaviors. Consumers served by this team typically have poor support systems and are often homeless; they typically resist initial efforts of behavioral healthcare intervention.

### SPECIALIZED COMMUNITY TREATMENT TEAMS: Afrocentric Team (Kuumba Posse)

The Afrocentric Team is designed to serve 40 African American consumers who often have intense levels of need and coexisting chemical dependency. Recently, the Columbus Dispatch featured the services provided by this team in an article (see appendix). Persons referred to this team may have participated in programs that have not adequately addressed their needs or offered choice regarding service philosophy. This team provides intensive levels of CSP services, with frequent and sometimes daily contact.

### SMD - Outpatient Individual and Group Services

#### DIALECTICAL BEHAVIOR THERAPY (DBT)

Clients participating in the DBT program are referred from both the agency's Community Treatment Teams and Designated Case Managers. The main DBT group meets for 27 weeks, once per week, for 5 hours. The average number of attendees is 4-7. There are three cognitive skills groups, averaging 16-20 total participants per week. One additional group is a women's support group averaging 4-9 participants per week.

#### Psychiatric/Medication and Other Medical Services

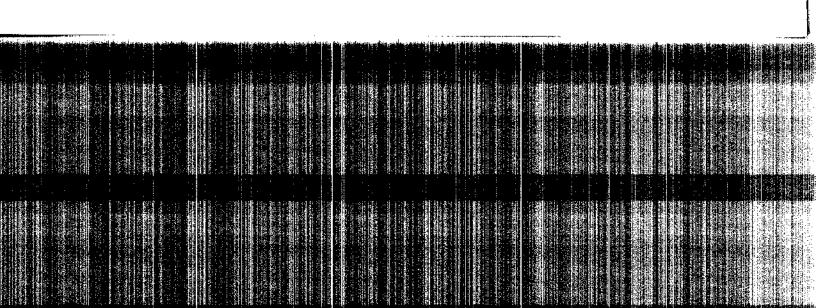

Southeast psychiatrists and nurses in the Medical Department provide psychiatric and medical services. The Medical Department functions as an integrated component of other clinical programs to ensure delivery of coordinated, comprehensive mental health services. Physicians schedule psychiatric time for routine and emergency treatment; nurses are continuously available during agency hours. Nurses also share 24 hour "on call" responsibilities for CTT consumers. Medical services may include assessment, medication evaluation and treatment, on-site laboratory collection, education, acupuncture, hospital evaluation, and medication maintenance. Southeast's Central Pharmacy serves customers who are not eligible for Medicaid, and whose incomes fall within the Central Pharmacy guidelines for eligibility. The Pharmacy also serves customers who meet Medicaid-defined criteria but whose entitlements are pending.

#### **GRANT/RIVERSIDE FAMILY PRACTICE**

Southeast's goal is to provide care appropriate to individual needs in a continuous and coordinated manner within and among settings. Health care organizations must view the care they provide as part of a continuum that over time gives individuals access to an integrated system of settings, services, and care levels. When making care and services available, Southeast considers the needs of populations served, available resources, strategies, and settings for delivery of service. Channels of communication among service providers facilitate stability, continuity, and comprehensiveness of services to each individual. The expectation of the external environment (payors and other external customers) is the support and facilitation of a seamless healthcare delivery system: integrated delivery systems. In this light, Southeast has identified the need for primary care services for its clients.

#### SMD - Community Outreach Services

PROJECT LIAISON

Project Liaison is charged to reach out, identify, and provide crisis resolution and initial case management to persons who are SMD, homeless and in need of mental health services. Specifically, Project Liaison responds to requests and referrals from a multitude of community agencies, public safety officials, churches, store owners and others to assess, treat, and link homeless persons to mental health and other community based services. The staff provide aggressive case finding, on-the-streets outreach efforts, and linkage of homeless persons with human services, medical, housing, mental health, alcohol and drug, and entitlement programs.

#### MOBILE PSYCHIATRIC OUTREACH PROJECT

The Mobile Psychiatric Outreach Project is an "other mental health service" within the Homeless Services Program. It provides aggressive case finding, psychiatric evaluation, stabilization and treatment, and limited medical care, to homeless customers in their natural environments, which may include homeless shelters, and the streets. The staff are based in a van which travels throughout Franklin County to sites where persons who are homeless are found; it also responds to urgent requests for service from shelters, police, businesses, clergy, and physicians. Because customers are difficult to engage, it is critical that the Van provide services without the requirements for opening a formalized medical record (ICR) and gathering customer-specific information during the initial contacts.

#### HEART TO HEART COLLABORATIVE WITH SALVATION ARMY

This program targets hard to reach homeless persons who typically have resisted traditional services who live in abandoned buildings, in alleyways or under bridges. They are typically suspicious of "helpers" and avoid using shelters if at all possible. Many are expected to have a co-existing chemical dependency problem.

#### SAFE HAVENS

Safe Havens is a collaborative housing project with Community Housing Network and Friends of the Homeless. It began operation in February, 1999. The 13 bed single room occupancy (SRO) facility, located at 749 East Broad, is designed to serve hard-to-reach, chronically homeless, mentally ill and chemically addicted men and women. The program provides both temporary and permanent housing.

## Residential Programs CARPENTER HOUSE

Carpenter House is a six-bed Type I residential facility that provides services to men who are duality diagnosed with mental illness and developmental disabilities; they also have failed other residential options in the adult system of care due to severe behavioral issues. Carpenter House provides room and board, personal care services, and "Other" mental health services.

#### REDMOND House

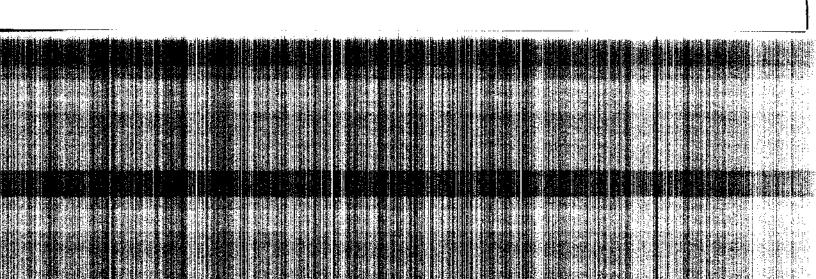

Redmond House is a 15 bed residential facility serving both the needs of homeless individuals in acute psychiatric crisis and those clients who wish further rehabilitation/habilitation following stabilization to address those issues which contribute to their chronic homelessness. At least 5 beds are dedicated to acute crisis stabilization. Upon admission to the program, those who are not receiving services from an ADAMH system agency are linked with a psychiatrist for medication assessment and treatment and to a case manager for linkage, advocacy, and support services.

## OTHER PROGRAMS URGENT CARE

Southeast's Urgent Care program serves persons who have unscheduled and scheduled critical need (appointment will be scheduled/client will be seen within 24 hours of contact). The unit also functions as the agency's intake department through telephone and face to face assessment of individuals in need of mental health and AOD services. Staffed by a Program Manager and two full-time personnel, one R.N. and one assessment specialist.

#### PROJECT WORK, INC.

Project Work targets customers who have interests in pursuing part-time and periodic employment. Customers are able to specify the number of hours and days they wish to work. The Project Work program is specifically designed to serve those who

are not interested in traditional employment training opportunities. However, it is a goal of Project Work to refer customers to community vocational programming, training, or competitive employment. Project Work has succeeded in employing those who cannot function in more structured, formal vocational training or employment programs. Customers with significant functional impairments have enjoyed the rewards of working.

#### PARTIAL HOSPITALIZATION

Southeast, Inc., has recognized the need for acute level partial hospitalization services to fill a current "gap" in services for SMD adults. In a continuum of care, partial hospitalization provides a treatment option focusing on efficient and effective ?CASE? management of the chronically mentally ill, while lessening the numbers of individuals hospitalized and shortening the lengths of hospital stay.

#### SOUTHEAST ACUPUNCTURE PROGRAM FOR ADDICTIONS

The program began in the Winter of 1997 and provides an array of services from several different units within Southeast. The program is designed to provide new and innovative adjunctive treatment approaches with consumers also engaging in primary AOD interventions. Acupuncture targets a population of clients who are severely mentally ill and chemically dependent. A part-time coordinator developed and leads this program.

#### CLIENT HEALTH CARE SERVICES: SOUTHEAST NURSE PRACTITIONER HEALTH CLINIC

The Southeast Nurse Practitioner Health Clinic began operating in July, 1998. It provides comprehensive physical health care, including treating existing health problems, diagnosing and treating new health problems, screening for disease, disease and illness prevention, providing health information and education, and promoting wellness.

#### PROGRAMS FOR THE GENERAL ADULT POPULATION

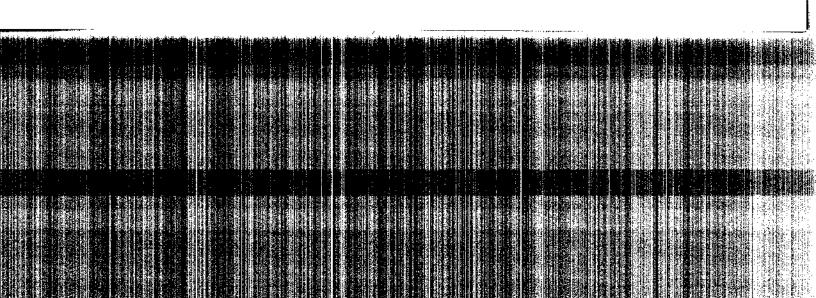

The adult target population includes persons between the ages of 18 and 60 years who present emotional, behavioral, mental and situational problems that affect their lives. The severity of the problems may be such that they affect adult customers' abilities to function in one or more life domains. While Southeast's adult population represents all socioeconomic levels, the majority are working-class and at (or below) the poverty level. The adult population does not include persons who are severely mentally ill. Southeast include varied and targeted subgroups — Criminal Justice is a major subgroup.

#### **Programs for Adults and Families**

The Adult and Family Program provides a range of services which include diagnostic assessment; group, individual, couple, family counseling and psychotherapy; medication/somatic; consultation; and mental health education. Counseling and psychotherapy services provide adult customers with assistance to improve functioning, to ease emotional pain, and to enhance relationships. Customers may receive individual, group, family, and/or couples counseling. The Adult and Family Program specializes in short-term therapeutic approaches, solution oriented treatment, and group therapy. Presenting problems frequently include anxiety, stress, depression, and relationship difficulties.

### Programs for Adults and Families: Afrocentric Parenting Program

Funded by the Ohio Children's Trust Fund, the Afrocentric Parenting Program will provide child abuse and neglect prevention services primarily for African-American families living on the south and near-east side of Columbus. Through referrals, Southeast will organize group sessions of an eight week duration to be led by Dr. Irma Phillips-Carmichael at the South Side Settlement House where child care will be provided at no cost to participants. College interns from OSU and Columbus State Community College will be utilized for the home visit component. The program is expected to begin in the Spring of 1998 and will be funded through all of FY99.

#### HIV/AIDS Programs: HIV/AIDS COUNSELING SERVICES

The HIV-Infected population may be asymptomatic or be at various stages related to the progression of the disease process. At Southeast, the majority of customers within this subgroup are homosexual males. Other customers are females and IV drug users. These individuals experience serious issues relating to loss, depression, and anger that affect their ability to function in various areas of their lives. Their significant others are also impacted and in need of mental health intervention, including bereavement assistance.

#### **HIV/AIDS Education**

HIV/AIDS Mental Health Education Services are provided as a joint funding effort between the Franklin County ADAMH Board and the Columbus Health Department. Presentations by the HIV/AIDS Counselor and the Educator are developed with input from persons with HIV/AIDS, family members, community members, and planners/funders. Recipient groups of educational presentations include homeless persons, youth, persons with mental illness, and staff groups who provide services to these groups. Evaluations are completed at the end of presentations; information from audiences forms the basis for determining the strengths of such programs and is used to develop future programs.

#### HIV (RYAN WHITE) OUTREACH CASE MANAGERS

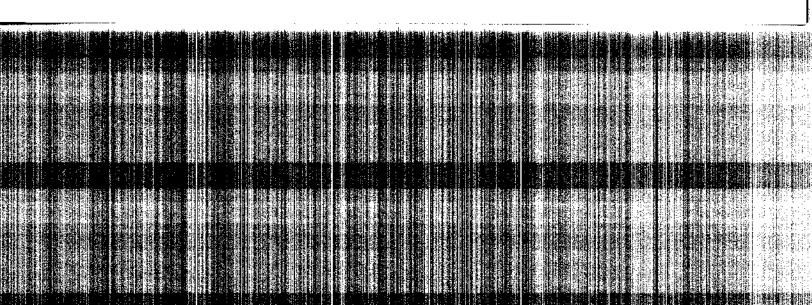

The Ohio Department of Health funds Southeast's two HIV Outreach Case Managers for the Central Ohio Region. They provide community based case management services to persons infected with and affected by HIV/AIDS and link individuals with resources in their communities to meet identified needs. Specific target groups include members of such minority groups as African Americans, women, children, adolescents, and substance abusers in Franklin and the six surrounding counties. These populations largely have been underserved to this point.

#### Criminal Justice Services Program: DOMESTIC VIOLENCE SERVICES

Domestic Violence Services are separate structured group for perpetrators and survivors as recommended by Ohio Domestic Violence Network Certification Requirements. In most cases, the legal/criminal justice system intervened in the DV situation and mandated participation by the male abuser. The DV male population presents problems of power/control, low self-esteem, and negative views of women. Issues of alcohol and drug abuse occur in many of these customers. Chemical use or abuse may be present. For both males and females, DV problems have affected their ability to function within the relationship and within other areas of their lives. Consumers may also receive individual counseling apart from the group.

#### **WOMEN SURVIVORS OF DV**

These consumers receive 12 weeks of education and support through a weekly group. Consumers may also receive individual therapy as indicated. Customers are generally referred through the Victim Witness Assistance Program, Children's Services, ACCESS, or Southeast Counseling Services. The women are assess/screened prior to beginning group to determine additional needs. Women may select to stay after the 12 weeks to gain self-knowledge, skills, and support. Weekly attendance and/or monthly progress is reported to appropriate sources when releases of information are completed.

## "Women Like Me," FEMALE PERPETRATORS OF DOMESTIC VIOLENCE

In September of 1997 Southeast was awarded this sub-contract initiated by the Ohio Reformatory for Women (ORW). Southeast places at ORW's Marysville facility a domestic violence counselor to conduct assessments and group counseling sessions among inmates for whom domestic violence and battering are issues. Anger management, conflict resolution and cognitive/behavioral issues are themes of this service for highly aggressive and abusive inmates.

## STRUCTURED THERAPY AND EDUCATION PROGRAM (STEP)

The sexual offenders sub-population is composed of adult offenders who have committed illegal sexual acts, most of whom have been convicted of or charged with sexual offenses. Offenders who sexually abuse children constitute the majority of the customers. Other customers have victimized adults through rape, voyeurism, exhibitionism, or telephone harassment. In addition, Southeast treats customers with inappropriate sexual behavior and urges who are also severely mentally disabled (SMD); this program targets adult males and females. In November, 1994 the STEP MR/DD program was created to serve offenders with developmental disabilities. Sex offenders and those with sexually abusive thinking have experienced differing histories and behavior patterns.

#### FRANKLIN COUNTY JAIL SOCIAL WORKERS

Southeast provides approximately 16 hours a week of psychiatric assessment and treatment services to inmates incarcerated within the Franklin County Correctional Facilities. This psychiatrist meets with inmates at the facilities where they are incarcerated and conducts psychiatric/mental/emotional assessments. Social workers screen referred inmates and refer to the psychiatrist those who are assessed to be at moderate-to-high risk (regarding behavioral and mental health needs). The psychiatrist reviews the assessment and offers mental health treatment (including medication) as appropriate. The psychiatric service is solely funded by the Franklin County Sheriff's Office.

#### Jail Social Workers

Southeast also provides social work/mental health services on-site at the Franklin County Corrections Centers. Specifically, the social workers screen referred new arrivals at the jail and consult with deputies and other medical staff, provide follow-up to inmates seen by the Southeast psychiatrist, and refer and link inmates to services upon their release (including linkage to Netcare ACCESS). They respond to requests and referrals from the correctional officers to evaluate persons who present unusual behaviors and link these persons with the psychiatrist, as appropriate.

#### **BONDS BEYOND BARS**

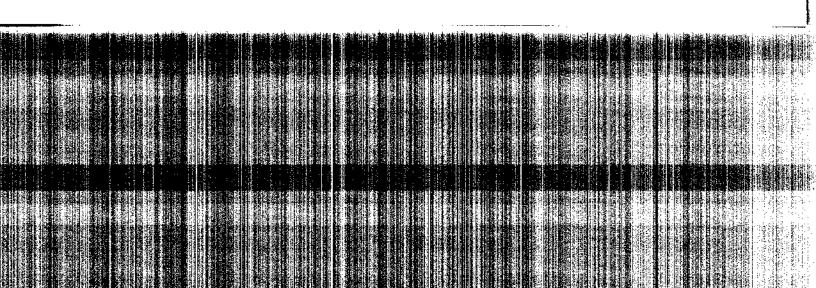

Initiated by the Seal of Ohio Girl Scouts Council, Bonds Beyond Bars is an Ohio Office of Criminal Justice Services, Juvenile Justice/Delinquency Prevention grant established to link inmate mothers with their daughters. Southeast was approached by the Girl Scout Council to provide subcontract services to help staff this innovative program based at the Ohio Reformatory for Women.

#### **Programs/Services for Older Adults**

Southeast defines older adults as persons 60 years of age or older. Persons 55-59 years of age may qualify for older adult services if they present issues of aging. Persons seen in this program may experience problems of depression, dementia, bereavement, multiple losses, fear of losing their independence, inability to care for themselves within their natural environment, and other mental health and chemical dependency issues not necessarily linked to age. Approximately 60% have severe mental disabilities. Problems may be further exacerbated by isolation due to lack of a family support system and by retirement. Issues of failing health, loss of income, and inadequate financial support also define older adults. Most of Southeast's older adult customers are women, widowed, and in poor health. The Older Adult Program works closely with the Franklin County Senior Options Program, Adult Protective Services, and PASSPORT and Netcare/Access Older Adult Assessment Program.

#### **Parker Morrow**

Parker Morrow House offers a 6-bed ODH licensed living facility for older adults. The focus of this facility is the prevention of pre-mature nursing home placement. Parker Morrow House provides a supportive environment for older adults with severe and persistent mental illness. Candidates on admission are those who will benefit from a structured, supervised setting that offers personal support, housekeeping assistance, and companionship. Upon admission to the house, those who are not receiving

services from an ADAMH system agency are linked with a psychiatrist for medication assessment, treatment, and case management for linkage, advocacy, and support services. The home promotes good mental health by offering companionship that may decrease loneliness and depression. Most residents have some physical health problems and limited cognitive deficits. The residents maintain their interest and social supports. Currently six of six residents in Parker Morrow House have SMD status and are receiving services from ADAMH funded agencies.

#### **ALCOHOL AND OTHER DRUG TREATMENT PROGRAMS**

#### **ALCOHOL AND OTHER DRUG PROGRAMS**

Southeast's Chemical Dependency Program is based upon the disease concept and utilizes an educational and counseling model of service provision. These services are provided to groups, families, individuals, and couples. The services provided are individualized, based on clinical need, as determined through an intensive assessment process. The customer's clinical need is matched with the appropriate level of treatment through use of the ODADAS Level of Care protocol. The treatment plan is developed cooperatively with the customer, family, and others, as appropriate.

#### Programs for Gay, Lesbian, and Bisexual Persons

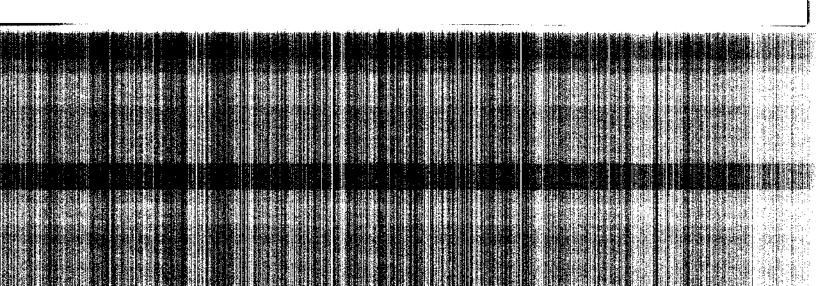

Southeast provides core outpatient chemical dependency and recovery services in non-traditional ways to persons who are gay, lesbian, and bisexual. The program uses outreach efforts to identify and engage members of the target group and makes use of community sites where natural supports and networks already exist. Services focus on gay, lesbian, and bisexual individuals for whom substance abuse problems are perceived to be either circumscribed or pervasive in the individual's life.

#### THE STALKING VICTIMS' HELP PROJECT

The Stalking Victims' Help Project provides specialized early intervention to women in Franklin County who report being stalked, and then supports and counsels these women through to case closure. Early intervention/prevention is cited as one of the most important ways to reduce crime (1997 needs assessment report of the Franklin County Alliance for Cooperative Justice). Experts estimate that up to 90% of cases involving women victims of homicide, committed by their husbands or boyfriends, are preceded by stalking. Providing education and counseling to women being stalked can strengthen each woman's ability to adopt successful psychological responses which reduce their mental stress, promote their personal safety, aid in evidence collection, and prevent escalation by the stalker.

# Other Southeast Services and Programs Temporary Assistance to Needy Families (TANF) / Welfare-to-Work Life Skill Coaches Demonstration Project

Southeast and Huck House have been awarded a welfare-to-work demonstration project grant funded by the US Department of Labor through a partnership between ADAMH, the Private Industry Council and the Franklin County Department of Human Services. The population to be served will be TANF recipients living in the southern half of Franklin County who face loss of their benefits starting in October 2000. To qualify for the Life Skill Coaches program, these TANF recipients must also have an AOD and/or mental health issue needing to be addressed, and one other barrier to employment (either a poor work history or no GED/High School Diploma). Southeast and Huck House will employ approximately 17 full time Life Skill Coaches who will work with up to 600 TANF clients over approximately a two year period ending June of 2001. The Life Skills Coaches will assist TANF recipients to achieve sustainable employment, educational & training advancement, and recovery from mental health & AOD disorders.
