

A **Primary Care Medical Home (PCMH)** is a medical office that puts you in the center of your care. At Southeast Healthcare, you are surrounded by members of your care team. Your team will help you understand all the services available to you through your new medical home. Meet your team of professionals!

Based on your health concerns and goals, other staff may be added to the team as needed. You will always be involved when deciding about referrals to specialists and other linkages to care.

HOW ARE WE DIFFERENT?

Primary Care Medical Homes (PCMH), like Southeast, are collaborative. This means that providers work as a **TEAM** with in-office **Care Managers, Clinical Pharmacists, Nurses**, and other staff, as well as outside hospitals and specialists. This is to make sure you get the care you need at the right time.

We want you to be an active member of your care team! Our PCMH practice will support you as you learn to manage your care. We will help guide you through making appointments, managing medications, creating care plans, and reaching your healthcare goals.

For medical emergencies contact your local emergency department or call 911
